Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claim 1 is objected to because of the following informalities: claim 1 has been canceled. Claim 1 should be added as a new claim. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claim 1 has been renumbered as (new) claim 22.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6, 10, 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Neat (4,453,647). Neat discloses, in figs. 5-8, a container comprising an upper edge, a lid having a channel 28, a corresponding tongue and groove members on the lid and container to interfit with each other within the channel, the tongue being misaligned horizontal with respect to the groove member.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3727

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 7, 10, 11, 13 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Vol Holdt, Jr. (6,619,498) in view of Neat or Taylor et al. (4,471,880). Vol Holdt disclose an invention substantially as claimed, except Vol Holdt does not disclose a tongue member misaligned horizontal with a groove member.

Neat or Taylor et al. teaches, a liquid-tight seal having a tongue misaligned horizontal with a groove member.

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the invention of Vol Holdt with the liquid-tight seal having a tongue member misaligned horizontal with a groove member, in view teaching of Neat and Taylor et al., in order to enhance the sealing of the invention.

5. Claims 8, 19-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Vol Holdt, Jr. in view of Neat or Taylor et al. in view of Widen et al. (4,444,332).

Vol Holdt, Jr. in view of Neat or Taylor et al. does not disclose the tongue member being slightly larger than the groove member.

Widen et al. teach a liquid-tight seal having a tongue member being slightly larger than a groove member.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the invention of Vol Holdt in view of Neat or Taylor having the tongue member being slightly larger than the groove member, as taught by Widen et al., in order to further enhance sealing of the invention.

In regard to claim 21, the invention of Vol Holdt comprises a substantially continuous annular shoulder formed on an outer skirt of the lid (see fig. 8).

Response to Arguments

6. Applicant's arguments with respect to claims 6-8, 10, 11, 13 and 19-22 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to LIEN TM NGO whose telephone number is 571-272-4545. The examiner can normally be reached on Monday through Friday from 8:30 AM -6:00 PM.
